Dagger Hilt, Clean Architecture, Modular Design Patterns, RESTful API Integration

User-Centric Design
Accessibility Implementation, Material Design, UX Research, Figma

Quality Assurance
Automated Testing (Unit & UI), CI/CD Pipelines, Performance Optimisation, Play Store Release Management

Cross-Functional Collaboration
Agile Methodologies, Client Communication, Technical Leadership, Code Review & Mentoring

EDUCATION

Bachelor of Engineering (Hons)

University of Auckland

03/2018 - 11/2022 Auckland, NZ

- Specialised in Software Engineering
- Honours project
  - *Pūioio: On-device Real-Time Smartphone-Based Automated Exercise Repetition Counting System.*
  - Deep learning model with 98%+ accuracy.
  - Awarded *Top Project in Artificial Intelligence and Machine Learning*.

WORK EXPERIENCE

Career Sabbatical

05/2026 - Present Rotorua, New Zealand

- Took time out to travel and then care for a family member.
- Building *Pīkau*, a Kotlin and Jetpack Compose tramping companion app, to keep my Android skills sharp (github.com/kkau201/pikau-android).

Android Developer

Alphero Ltd.

01/2023 - 04/2026 Wellington, NZ

- Delivered and maintained native Android apps for 10+ client projects across media streaming, healthcare, government and utilities, reaching 2M+ downloads.
- Led the Android TV portion of the *ThreeNow* mobile and TV relaunch, migrating XML to Jetpack Compose, Java to Kotlin and MVI to MVVM. The relaunch drove a 60%+ increase in user engagement and streams and was a finalist in the *Best Design Awards*
- Pioneered accessibility-first development by adding Deque automated scanning to the CI/CD pipeline, cutting manual QA cycles by 50% and ensuring WCAG 2.1 AA compliance across all projects.
- Managed 15+ Play Store releases end-to-end, from internal testing tracks through to production monitoring.
- Mentored a graduate developer. Completed a *Toastmasters* course to strengthen client demos and presentations.

Full Stack Developer Intern

Bank of New Zealand

11/2021 - 02/2022 Wellington, NZ (Remote)

- Built customer-facing forms in the Lending domain for credit card and personal loan applications.
- Built and refactored APIs for performance and maintainability, and facilitated a team retrospective in agile workflows.

Checkout Operator/i-Shop Assistant

New World Westend

12/2015 - 02/2020 Rotorua, New Zealand

- Developed customer service and problem-solving skills in a fast-paced, team-driven environment.
